Subject Index, Volume 120

A

accelerometers
  Field Assessment of Energy Expenditure, 1492
acid-base
  Dietary Undetermined Anion, 579
  Acid-Base Balance and Eggshell Quality, 1360
active transport
  Intestinal Uptake of Riboflavin, 588
adaptation
  Chicken Liver Lipid Metabolism in Vitro, 1684
adenosyltransferase
  Sulfur Amino Acids in Rats with Renal Failure, 691
adenylate cyclase
  Dietary Fat and Testicular Plasma Membrane, 610
adipose tissue
  Guar Gum and Lipoprotein Lipase, 64
  Mn Deficiency and Glucose Transport, 1075
  Nutrition and Lipoprotein Lipase, 1087
  DHEA and Diet-Induced Obesity, 1103
β-adrenergic agonist
  Ractopamine Increases Protein Synthesis, 1677
β-adrenergic receptors
  Perinatal Undernutrition and β-Adrenergic Receptors, 305
adrenalectomy
  Adrenal Function and Amino Acid Imbalance, 1617
aging
  Energy Restriction and Spleen PGE_2 Levels, 112
  Milk and Zinc Retention, 398
  Diet and Glucose Tolerance in Aging, 598
  Dietary Restriction, Aging and Gene Expression, 602
  Immune Response with Dietary Restriction, 1393
  Dietary Proteins and Cholesterol Metabolism, 1624
  Glutathione Augments Proliferative Responses, 1710
albumin
  Transthyretin Levels in Tryptophan Deficiency, 1610
alcohol
  Alcohol and Free Radical Defense, 213
  Growth of Ethanol-Exposed Rat Fetuses, 1080
  Alcohol and Vitamin B-6 Status, 1344
Alimet
  HMB: A Naturally Occurring Methionine Source, 553
alkaline phosphatase
  Vitamin B-6 Enzymes and Pregnancy, 178
  Medium Chain Triglycerides and Activity of Microvillar Enzymes, 969
alligators
  Fatty Acid Nutrition of Alligators, 674
  Dietary Protein and Energy for Alligators, 775
aluminum
  Aluminum and Mineral Metabolism in Laying Hens, 493
American Institute of Nutrition
  Vitamin Nomenclature Policy, 12
  AIN/ASCN Position Statement on Food Labeling, 534
  Proceedings of the Fifty-Fourth Annual Meeting, 955
amino acids
  Branched-Chain Amino Acids in Protein Selection, 52
  Amino Acids, Diets and Gluconeogenesis, 116
  Oligomethionine Digestion and Dietary Proteins, 166
  Amino Acid Imbalances and Brain Serotonin, 521
  Sulfur Amino Acids in Rats with Renal Failure, 691
  Oxidation of Amino Acids in Lactating Cows, 700
  Insulin and Free Amino Acids in Fed Fish, 711
  Meal Frequency and Hepatic BCKAD Activity, 793
  Dietary Amino Acids and Hypercholesterolemia, 831
  Taurine Deficiency and Retinol, 1163
  Postprandial Plasma Amino Acids in Minipigs, 1305
  Adrenal Function and Amino Acid Imbalance, 1617
anemia
  Inorganic Iron and Anemia, 141 (erratum, 437)
  Indicators of Iron Status, 1486
anthropometric measurements
  Protein Status Evaluation, 1496
  Assessment of Homebound Elderly, 1535
antibiotics
  Manipulation of the Gut Functional Activity, 639
arachidonic acid
  Enrichment of (*n*-3) Fatty Acids in Neonates, 436
  Fatty Acid Nutrition of Alligators, 674
arginine
  Urinary Excretion of Orotic Acid in Sheep, 1001
ascorbic acid
  Isoascorbate versus Ascorbate, 185
  Ascorbic Acid and Vitamin D Hormone, 1185
  Assessment of Vitamin C Status, 1480

B

baboons
  Cholesterol Metabolism in Adult Baboons, 243
  Dietary Fiber vs. Dietary Propionate in Baboons, 1046
bacterial adherence
  Malnutrition and *Salmonella typhimurium*, 404
balance experiments
  Metabolizable Energy of Fiber-Rich Diets, 1331
bile acids
  Dietary Fiber and Pancreatic Function, 353
  Fermentation of Vegetable Fiber in Rats, 459
  Tyrosine-Induced Hypercholesterolemia, 1134
  Dietary Effects on Bile Acid Metabolism, 1320
bioavailability
  Inorganic Iron and Anemia, 141 (erratum, 537)
  Iron Retention from Tannin and Casein Diets, 760
  Bioavailability of Food Folates, 1640
biochemical indicators
  Dose-Response Tests in Field Surveys, 1455
  Protein Status Evaluation, 1496
Biographical Articles
  Bernard S. Schweigert (1921-1989), 813
  Herbert R. Bird (1912-1989), 1123
biotin
  Studies of Biotin Binding in Human Plasma, 375
blackcurrant seed oil
  Diet and Macrophage Phospholipid Subclasses, 825
body composition
  Dietary Fat and Body Composition, 1277
bone
  Effect of Calcium Citrate-Malate on Bone Development, 876
Book Reviews
  Amino Acid Availability and Brain Function in Health and Disease, 137
  Diet and Obesity, 138

Applied Nutrition and Diet Therapy, 1275
Present Knowledge in Nutrition, 1737
borage oil
Dietary PUFA and Cutaneous Eicosanoids, 36
bovine somatotropin
Bioactivity of Milk From bST-Treated Cows, 514
Nutrient Utilization in bST-Treated Heifers, 1256
brain
Amino Acid Imbalances and Brain Serotonin, 521
Undernutrition and Brain Phosphoryl Serine, 594
breast feeding
Cholesterol Metabolism in Adult Baboons, 243
brown adipose tissue
High Fat Feeding and GDP Binding, 786
Nutritional Control of Uncoupling Protein mRNA, 1730
brush border membranes
Vitamin D Stimulation of Selenite Uptake, 882
Enhancement of Sulfhydryl Group Availability, 1198
buthionine sulfoximine
Glutathione Augments Proliferative Responses, 1710

C

calcium
Vitamin D and Calcium Effects on Plasma Lipids, 45
Effect of Butterfat on Ca and Mg Metabolism, 266
Milk and Zinc Retention, 398
Consistency of Nutrient Intakes, 869
Effect of Calcium Citrate-Malate on Bone Development, 876
Enhancement of Sulfhydryl Group Availability, 1198
Acid-Base Balance and Eggshell Quality, 1360
Calcium Status and Metabolism, 1470
Calcium Tracer Equilibrium in Milk, 1672
calorimetry
Field Assessment of Energy Expenditure, 1492
Campylobacter sp.
Organ Hypertrophy in Response to High Protein, 1248
canthaxanthin
Canthaxanthin and Lycopene Metabolism in Animals, 1205
carbamyl phosphate
Urinary Excretion of Orotic Acid in Sheep, 1001
carbohydrate
Carbohydrate and Feeding in Obese Rats, 309
Dietary Protein and Energy for Alligators, 775
Dietary Carbohydrate and Newborn Survival, 1016
Dietary Carbohydrate and Lactation, 1028
Fermentable Carbohydrates and Lipoproteins, 1037
cardiolipin molecular species
Mitochondrial Cardiolipin Molecular Species, 415
carnitine
Vitamin B-6 Requirement in Carnitine Synthesis, 258 (erratum, 1429)
Trimethyllysine Biosynthesis in Pregnant and Lactating Rats, 846
carob
Tea, Cocoa, Carob and Nitrogen Excretion, 346
β-carotene
β-Carotene Metabolism in Rats and Monkeys, 81
Dietary Antioxidants and Lipid Peroxidation, 97
Liver Accumulation of β-Carotene Stereoisomers, 889
carotenoids
Isomers of Carotenoids in Human Plasma, 1654
Carotenoids in Monkey Plasma, 1663
carp
Insulin and Free Amino Acids in Fed Fish, 711
casein
Oligomethionine Digestion and Dietary Proteins, 166
β-Casomorphins and Gastrointestinal Motility, 252
Proteins and Cholesterol Metabolism, 422
Postprandial Plasma Amino Acids in Minipigs, 1305
Postprandial Plasma Hormones in Minipigs, 1387
β-casomorphins
β-Casomorphins and Gastrointestinal Motility, 252
castanospermine
Sucrase Inhibition and Reduced Glycemic Response, 105
catalase
Dietary Restriction, Aging and Gene Expression, 602
catecholamines
Norepinephrine Turnover in Copper Deficiency, 88
cats
Potassium Depletion and Acidosis in Cats, 569
Effect of Processing on Dietary [^{14}C]Taurine, 995
Taurine Deficiency and Retinol, 1163
cattle
Bioactivity of Milk from bST-Treated Cows, 514
Oxidation of Amino Acids in Lactating Cows, 700
Intestinal Transport of Tri- and Dicarboxylic Acids, 767
Nutrient Utilization in bST-Treated Heifers, 1256
Supplemental Niacin for Dairy Cows, 1648
cell culture
Isoascorbate versus Ascorbate, 185
cell injury
Vitamin E, Peroxisomes and Endothelial Cells, 331
cell-mediated cytotoxicity
Dietary Fat and Cell-Mediated Cytotoxicity, 619
Vitamin A Deficiency and Natural Killer Cell Activity, 1264
cell regulation
Thyroid Cell Regulation by Type of Dietary Fat, 1297
chickens
L-2-Oxothiazolidine-4-Carboxylate, 158
Time-Course of Zn-Induced Pancreatic Damage, 389
Aluminum and Mineral Metabolism in Laying Hens, 493
HMB: A Naturally Occurring Methionine Source, 553
Vitamin D Stimulation of Selenite Uptake, 882
Liver Accumulation of β-Carotene Stereoisomers, 889
Vitamin D Compounds and Tibial Dyschondroplasia, 1054
Oxidation of L-Methionine Hydroxy Analogue, 1171
Enhancement of Sulfhydryl Group Availability, 1198
Metallothionein Induction by Iron, 1214
Acid-Base Balance and Eggshell Quality, 1360
Chicken Liver Lipid Metabolism in Vitro, 1684
children
Indicators and Outcomes of Undernutrition, 924
Defining Undernutrition for Public Health, 933
Surveillance of Severe Pediatric Undernutrition, 943
Undernutrition of Children in Massachusetts, 948
chloride
Dietary Undetermined Anion, 579
Acid-Base Balance and Eggshell Quality, 1360
cholecystokinin
Cholecystokinin Response to Fats, 686
cholesterol
Vitamin D and Calcium Effects on Plasma Lipids, 45
Guar Gum and Lipoprotein Lipase, 64
Cholesterol Metabolism in Adult Baboons, 243
Proteins and Cholesterol Metabolism, 422
Oat Bran Dose Response, 561
Dietary Fiber and Cholesterol Metabolism, 800
Soy Protein Digests and Serum Cholesterol, 977
Dietary Fiber vs. Dietary Propionate in Baboons, 1046
Dietary Fat and Plasma Lipids, 1126
Tyrosine-Induced Hypercholesterolemia, 1134
Pectin and LDL Metabolism, 1283
Dietary Proteins and Cholesterol Metabolism, 1624
cholestyramine
Dietary Effects on Bile Acid Metabolism, 1320
chronic disease
Indicators of Iron Status, 1486
citrate
Intestinal Transport of Tri- and Dicarboxylic Acids, 767

cocoa
Tea, Cocoa, Carob and Nitrogen Excretion, 346
coenzyme A
Coenzyme A in Vitamin B-12–Deficient Rats, 290
Pantothenate Deficiency in Rats Elevates Lipids, 719
Pantothenate Kinase Activity in Liver, 1376
coenzyme Q
Dietary Antioxidants and Lipid Peroxidation, 97
collagen synthesis
Isoascorbate versus Ascorbate, 185
conjugase
Pancreatic Pteroylpolyglutamate Hydrolase, 467
copper
Norepinephrine Turnover in Copper Deficiency, 88
Dietary Homocysteine and Copper Status, 1068
Rat Superoxide Dismutase Levels, 1223
Effects of Cellular Copper Content, 1370
Copper Deficiency and Macrophage Function, 1692
Neutrophil Function as an Indicator of Cu Status, 1700
Critical Review
Vitamin E Absorption, Transport and Distribution, 233
cutaneous eicosanoids
Dietary PUFA and Cutaneous Eicosanoids, 36
cystathionase
Cyst(e)ine Catabolism in Kidney Tubules, 450
Methionine Transsulfuration in Hepatocytes, 837
cystathione-β-synthase
Sulfur Amino Acids in Rats with Renal Failure, 691
cysteine
L-2-Oxothiazolidine-4-Carboxylate, 158
Cyst(e)ine Catabolism in Kidney Tubules, 450
cysteinesulfinate
Cyst(e)ine Catabolism in Kidney Tubules, 450
cytochrome P450 isozymes
Effects of Corn Oil on P450 and Glutathione S-Transferase, 1718

D

1,25-dihydroxycholecalciferol
Vitamin D and Calcium Effects on Plasma Lipids, 45
Vitamin D Compounds and Tibial Dyschondroplasia, 1054
5′-deoxy-5′methylthioadenosine
HMB: A Naturally Occurring Methionine Source, 553
data collection
Nutritional Indicators: Context, 1519
diabetes
Pantothenate Kinase Activity in Liver, 1376
diagnostic specificity
Specificity of Relative Dose Response Test, 745
diamsar
Effects of Cellular Copper Content, 1370
diet history
Consistency of Nutrient Intakes, 869
diet selection
Macronutrient Selection in Rats: Effect of Fat, 1418
dietary acidification
Potassium Depletion and Acidosis in Cats, 569
dietary recall
Assessment of Homebound Elderly, 1535
dimethylhydrazine
Effect of Butterfat on Ca and Mg Metabolism, 266
disinterested refusers
Assessment of Homebound Elderly, 1535
docosahexaenoic acid
Enrichment of (n-3) Fatty Acids in Neonates, 436
dose-response tests
Sensitivity of Relative Dose Response Test, 738
Specificity of Relative Dose Response Test, 745
Dose-Response Tests in Field Surveys, 1455

Adrenal Function and Amino Acid Imbalance, 1617
set point
Endogenous Signals of Body Weight Regulation, 893
sheep
Urinary Excretion of Orotic Acid in Sheep, 1001
social indices
Hunger and Undernutrition in the United States, 919
social justice
Nutritional Indicators: Context, 1519
sodium
Dietary Undetermined Anion, 579
sodium alginate
Dietary Fiber and Pancreatic Function, 353
soybean protein
Oligomethionine Digestion and Dietary Proteins, 166
Proteins and Cholesterol Metabolism, 422
Soy Protein Digests and Serum Cholesterol, 977
Postprandial Plasma Amino Acids in Minipigs, 1305
Postprandial Plasma Hormones in Minipigs, 1387
Spirulina maxima
Effect of *S. maxima* on Vitamins A and E in Rats, 1235
splenocytes
Dietary Fat and Cell-Mediated Cytotoxicity, 619
stable isotopes
Exchangeable Selenite Pool and Whole Body Se, 190
Protein Status Evaluation, 1496
starvation
Amino Acids, Diets and Gluconeogenesis, 116
steroid excretion
Proteins and Cholesterol Metabolism, 422
Dietary Proteins and Cholesterol Metabolism, 1624
sterol synthesis
Propionate, Dietary Fiber and Lipid Metabolism, 668
subpopulations
Core Indicators of Nutritional State, 1559
sucrase
Sucrase Inhibition and Reduced Glycemic Response, 105
Medium Chain Triglycerides and Activity of Microvillar Enzymes, 969
sucrose
Sucrase Inhibition and Reduced Glycemic Response, 105
Diet and Glucose Tolerance in Aging, 598
sugar nucleotides
Vitamin A and Glycoconjugate Biosynthesis, 361
sugar phosphates
Vitamin A and Glycoconjugate Biosynthesis, 361
sulfhydryl groups
Vitamin D Stimulation of Selenite Uptake, 882
Enhancement of Sulfhydryl Group Availability, 1198
sunlight
Vitamin D Assays, 1464
superoxide dismutase
Alcohol and Free Radical Defense, 213

Mn, Fe and Lipid Interactions, 507
Dietary Restriction, Aging and Gene Expression, 602
Rat Superoxide Dismutase Levels, 1223
surveys
Surveillance of Severe Pediatric Undernutrition, 943
Nutrition Monitoring and Policy, 1437
Selecting Indicators for Surveys, 1440
Field Laboratory Operation in NHANES III, 1446
Field Assessment of Energy Expenditure, 1492
Nutrition Surveillance, 1512
Dietary Intake Methodology in USDA Surveys, 1525
USDA's Survey Nutrient Data Base, 1530
Core Indicators of Nutritional State, 1559
sweet taste
Saccharin and Energy Intake, 123
Symposium
Influence of Gut Metabolism on Nutrient Supply, 631
Ionophores and Nutrient Digestion and Absorption, 632
Manipulation of the Gut Functional Activity, 639
Changes in Liver and Gastrointestinal Tract Energy Demands, 649
Identification and Prevalence of Undernutrition, 917
Hunger and Undernutrition in the United States, 919
Indicators and Outcomes of Undernutrition, 924
Defining Undernutrition for Public Health, 933
Surveillance of Severe Pediatric Undernutrition, 943
Undernutrition of Children in Massachusetts, 948
Nutrition Monitoring and Nutrition Status Assessment, 1431
Need for Accurate Nutrition Survey Methods, 1433
Nutrition Monitoring and Policy, 1437
Selecting Indicators for Surveys, 1440
Field Laboratory Operation in NHANES III, 1446
Laboratory Quality Control in NHANES III, 1451
Dose-Response Tests in Field Surveys, 1455
Assessment of Vitamin A Status, 1459
Vitamin D Assays, 1464
Calcium Status and Metabolism, 1470
Zinc Status Assessment, 1474
Assessment of Vitamin C Status, 1480
Indicators of Iron Status, 1486
Field Assessment of Energy Expenditure, 1492
Protein Status Evaluation, 1496
Vitamin B-6 Status Assessment, 1503
Folate Status Assessment, 1508
Nutrition Surveillance, 1512
Nutritional Indicators: Context, 1519
Dietary Intake Methodology in USDA Surveys, 1525
USDA's Survey Nutrient Data Base, 1530
Assessment of Homebound Elderly, 1535
Nutritional Assessment of City Homebound, 1538
Indicators to Assess Hunger, 1544
Nutritional Risk Index, 1549
synapse
Vitamin B-6 and Neocortex Development, 485
Glutathione Augments Proliferative Responses, 1710

T

tallow
Effect of Dietary Fats on Body Fat Accumulation, 1291
Macronutrient Selection in Rats: Effect of Fat, 1418
tannin
Iron Retention from Tannin and Casein Diets, 760
taurine
Effect of Processing on Dietary [^{14}C] Taurine, 995
Taurine Deficiency and Retinol, 1163
tea
Tea, Cocoa, Carob and Nitrogen Excretion, 346
testosterone
Dietary Fat and Testicular Plasma Membrane, 610
Effects of Corn Oil on P450 and Glutathione S-Transferase, 1718
theophylline
Theophylline Therapy and Pyridoxal Kinase Levels, 1352
thermogenesis
High Fat Feeding and GDP Binding, 786
Nutritional Control of Uncoupling Protein mRNA, 1730
thiobarbituric acid reactive substances (TBARS)
Dietary Homocysteine and Copper Status, 1068
thiosulfate
Cyst(e)ine Catabolism in Kidney Tubules, 450
thyroid cells
Thyroid Cell Regulation by type of Dietary Fat, 1297
thyroxine
Dietary Fat Suppresses T_3 Action, 625
tibial dyschondroplasia
Vitamin D Compounds and Tibial Dyschondroplasia, 1054
tight junctions
Vitamin A Deficiency and Noise Susceptibility, 726
tongue
Lingual Lipase and Dietary Fat, 1148
transaminases
Vitamin B-6 Status Assessment, 1503
transcription
Dietary Fat Suppression of Gene Expression, 1727
transferrin
Transthyretin Levels in Tryptophan Deficiency, 1610
transport
Vitamin E Absorption, Transport and Distribution, 233
Intestinal Uptake of Riboflavin, 588
Intestinal Transport of Tri- and Dicarboxylic Acids, 767
Mn Deficiency and Glucose Transport, 1075
Glutathione and Peroxidized Methyl Linoleate, 1115
Effects of Cellular Copper Content, 1370
transsulfuration
Methionine Transsulfuration in Hepatocytes, 837
transthyretin
Transthyretin Levels in Tryptophan Deficiency, 1610
tricarboxylic acid cycle
Oxidation of Amino Acids in Lactating Cows, 700
triglycerides
Guar Gum and Lipoprotein Lipase, 64
Cholecystokinin Response to Fats, 686
Pantothenate Deficiency in Rats Elevates Lipids, 719
triiodothyronine
Iron Deficiency and Exercise Interactions, 900
trimethyllysine
Trimethyllysine Biosynthesis in Pregnant and Lactating Rats, 846
trimethylselenonium ion
Effect of Chronic Selenite Supplementation, 274
tryptophan
L-Tryptophan and D,L-β-(1-Naphthyl) Alanine, 1157
Transthyretin Levels in Tryptophan Deficiency, 1610
tryptophan receptor protein
L-Tryptophan and D,L-β-(1-Naphthyl)Alanine, 1157
tyrosine
Tyrosine-Induced Hypercholesterolemia, 1134

U

undernutrition
Undernutrition and Brain Phosphoryl Serine, 594
Surveillance of Severe Pediatric Undernutrition, 943
Undernutrition of Children in Massachusetts, 948
undigested peptides
Soy Protein Digests and Serum Cholesterol, 977
United States
Indicators and Outcomes of Undernutrition, 924
Defining Undernutrition for Public Health, 933

unsaturated fatty acids
Liver Fatty Acids During Pregnancy, 338

V

visceral organs
Changes in Liver and Gastrointestinal Tract Energy Demands, 649
Organ Hypertrophy in Response to High Protein, 1248
viscous polysaccharides
Dietary Fiber and Pancreatic Function, 353
vitamins
Nomenclature Policy, 12
vitamin A
Vitamin A and Glycoconjugate Biosynthesis, 361
Vitamin A Deficiency and Noise Susceptibility, 726
Sensitivity of Relative Dose Response Test, 738
Specificity of Relative Dose Response Test, 745
Effect of *S. maxima* on Vitamins A and E in Rats, 1235
Dose-Response Tests in Field Surveys, 1455
Assessment of Vitamin A Status, 1459
vitamin B-12
Coenzyme A in Vitamin B-12–Deficient Rats, 290
vitamin B-6
Vitamin B-6 Enzymes and Pregnancy, 178
Vitamin B-6 Requirement in Carnitine Synthesis, 258 (erratum, 1429)
Vitamin B-6 and Neocortex Development, 485
Relationship Between Blood and Tissue PLP, 1338
Alcohol and Vitamin B-6 Status, 1344
Theophylline Therapy and Pyridoxal Kinase Levels, 1352
Vitamin B-6 Status Assessment, 1503
vitamin C
Vitamin C and Cholesterol in Rats, 1140
Assessment of Vitamin C Status, 1480
vitamin D
Vitamin D and Calcium Effects on Plasma Lipids, 45
Vitamin D Stimulation of Selenite Uptake, 882
Vitamin D Compounds and Tibial Dyschondroplasia, 1054
Ascorbic Acid and Vitamin D Hormone, 1185
Vitamin D Assays, 1464
vitamin E
Dietary Antioxidants and Lipid Peroxidation, 97
Vitamin E Absorption, Transport and Distribution, 233
Vitamin E, Peroxisomes and Endothelial Cells, 331
Immunostimulation by Vitamin E, 1096
Effect of *S. Maxima* on Vitamins A and E in Rats, 1235

W

water-soluble vitamins
Dose-Response Tests in Field Surveys, 1455
weight cycle
Endogenous Signals of Body Weight Regulation, 893
weight-for-height
Undernutrition of Children in Massachusetts, 948

Y

YAC-1 cells
Vitamin A Deficiency and Natural Killer Cell Activity, 1264

Z

zinc
Time-Course of Zn-Induced Pancreatic Damage, 389
Milk and Zinc Retention, 398
Endogenous Zinc Excretion in Mink, 862
Zn Deficiency, Hemostasis and Platelet Function, 1062
Growth of Ethanol-Exposed Rat Fetuses, 1080
Zinc Status Assessment, 1474
